# Vote By Mail for Secure Elections in 2020 — and Beyond

# A Step-by-Step Guide for Oregon

In-depth materials and guidelines for local election administrators, secretaries of states, legislators, and advocates to help Oregon handle more mailed-out ballots.

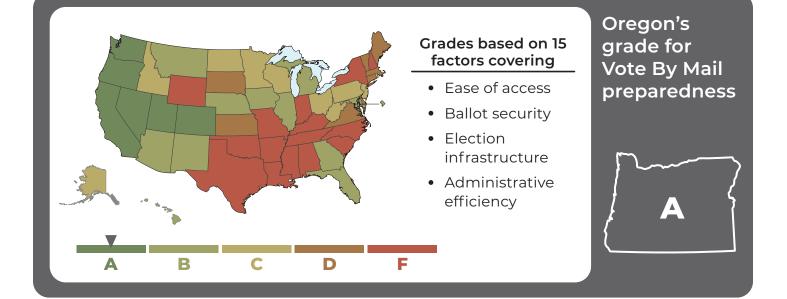

# Voting in Oregon

Oregon has more than 2.7 million registered voters in its 36 counties, ranging from 1,004 in Wheeler County to 531,739 in Multnomah County. Oregon conducts elections entirely by mail.

Oregon held its primary May 19, as scheduled, and nearly 50 percent of registered voters cast ballots—one of the highest state primary turnouts in 2020. This was the first year Oregon prepaid ballot postage. A temporary workforce helped process ballots in socially distanced settings, replacing older, higher-risk election workers. To compensate for reduced staff, many counties began processing ballots earlier than usual. Some election officials, including Multnomah County Elections Director Tim Scott, purchased new software to automate ballot verification and speed processing.

Ways in which Oregon is already prepared

- Provides a postage-prepaid return envelope for mailed ballots.
- Gives voters sufficient opportunity to cure signature problems.
- Allows any voter to request an absentee ballot.
- Is a member of the Electronic Registration Information Center (ERIC).
- Offers voters a "single sign-up" option to permanently vote by mail.

- Uses voters' signatures to verify ballots.
- Allows county clerks to start processing ballots sufficiently early.
- Allows voters to register and request an absentee ballot online.
- Early in-person voting starting three weeks before Election Day.
- Allows anyone to return sealed ballots in person.
- Automatically registers voters and updates their address.

## Who We Are

Sightline is a nonpartisan nonprofit think tank with a 25-year history. We are based in the Pacific Northwest, where many states already conduct all-mail elections. We are grateful for feedback and research from many policy experts, elections officials, and leaders committed to safe, secure democracy, particularly the National Conference of State Legislators and the National Vote at Home Institute.

# The Moment

American election officials face an urgent challenge to secure the 2020 elections. As poll workers and voters grapple with the coronavirus pandemic, many jurisdictions are already unable to find enough workers to run their usual polling places, and many Americans are seeking to cast their ballot from home, rather than risk contagion in a crowded polling place in November.

## **About This Resource**

We hope that Oregon election officials, advocates, and legislators will find this resource useful as they work to handle more Vote By Mail ballots in 2020 and beyond.

Local election officials and secretaries of state will find in-depth information including practical nuts-and-bolts advice, materials and guidelines from election administrators with experience in conducting all-mail elections, and information about vendors and costs.

**Legislators** will find tried-and-tested policies, along with sample language from states that have successfully implemented those policies. Even if Oregon lawmakers don't act in time for November 2020, the experience of hastily trying to secure elections this year may create a greater political appetite for reforms to strengthen democracy in Oregon beyond 2020.

	5. 6.	Allow counties to accept ballots postmarked on Election Day. Allow voters to request replacement ballots online.	9 10

# For Local Election Officials

# 1. Coordinate with USPS<sup>®</sup>.

To ensure that the United States Postal Service (USPS) is able to process ballots in a timely manner, election administrators can <u>contact their local USPS</u> election mail coordinator to discuss the design, timing and volume of election materials.<sup>1</sup> USPS can review all materials to ensure that the design, wording, and colors meet their guidelines, and sign off on the printer's proofs. Election administrators can also discuss the date, time, and location for delivery of ballots to the post office to ensure that the post office is prepared. For example, before each election, King County, Washington, election administrators send a letter to USPS alerting them to the number, type, and timing of ballots they expect to deliver.<sup>2</sup>

USPS may also be able to help election administrators access the National Change of Address Linkage (NCOA) to update voters' addresses. Oregon is already a member of the Electronic Registration Information Center (ERIC), which uses NCOA data to help Oregon keep voter lists up to date. However, because voters may have moved since Oregon's last update, local officials can access NCOA for their voters' latest address information. Having the most up-to-date addresses will ensure that each ballot reaches the right voter, reducing the costs of re-mailing ballots.

## 2. Design ballots and envelopes that are easy to use.

Well-designed envelopes, ballots, forms, and instructions help voters fill out their ballots and return them without mistakes, decreasing processing time and minimizing the chance that ballots will be flagged, thrown out, or not counted. In contrast, poorly designed instructions or ballots may cause voters to fill out their ballot incorrectly or incompletely so that their vote is not counted.<sup>13</sup>

Ensure that election materials are easy so that voters who may be voting by mail for the first time don't make mistakes. For example, those who are new to mailing their ballots may not know that they need to sign the outside of their envelope, so putting their name under the signature line and providing simple and clear instructions to sign there can help prompt them and reduce the number of ballots that need extra processing time. (Also, pre-filling the absentee ballot request form can help voters complete it correctly.)

Color-coded envelopes can help USPS sort the mail quickly and accurately, and including space for voters' contact information can help election officials reach voters promptly in the event of a missing signature or discrepancy.

Another important way to assist voters is to design and distribute voter education booklets to help guide them through the process. (For example, when Anchorage, Alaska, moved to all-mail elections in 2018, in addition to a robust <u>community education campaign</u> and a <u>voter information flyer</u>, the city extended an elections call center's hours in the month leading up to the election.) To reach all voters, make all voter materials and the elections

## 3. Consider using a professional printer and ballot sorter.

Many election administrators use professional printers and ballot sorters, rather than printing ballots, stuffing envelopes, and sorting them in-house. This can save money and increase staff efficiency. It might also mitigate problems voters have experienced during their primaries, such as in Georgia,<sup>28</sup> where voters requested ballots but did not receive them, or in New York,<sup>29</sup> where ballots did not include a return envelope. Both states were relying on overworked workers who did not have much experience in printing, stuffing, and mailing ballot envelopes, rather than hiring a professional service that has printed, stuffed, and mailed ballot envelopes many times and has quality control practices in place.

According to the Brennan Center, printing costs per ballot ranges from <u>\$0.21 to \$0.35</u> <u>cents per ballot</u>. Volume efficiencies in moving to a Vote By Mail system result in lower per-voter printing costs. In Colorado, total printing costs declined from <u>\$6.86 to \$3.04 per</u> <u>voter</u> after implementing Vote By Mail.

# For Oregon's Secretary of State

*Clerks could independently implement each of these recommendations, but a coordinated statewide effort would be more effective.* 

## 4. Use a comprehensive system to track ballots.

Comprehensive ballot tracking improves the security of absentee ballots and boosts voter confidence in mailed-out ballots. The service, offered by companies like Ballot Scout<sup>39</sup> and BallotTrax,<sup>40</sup> uses intelligent barcodes to track every ballot and envelope, minimizing the risk of stolen ballots or ones that have been tampered with. It also increases transparency and accountability because voters can easily track when their ballot is in transit, received by election officials, and counted.

Ten states<sup>41</sup> <u>require</u> tracking for absentee ballots, and 30 others<sup>42</sup> have some form of ballot tracking, though not <u>required</u> by statute. These tracking services may not be comprehensive, however. For example, in many states, voters can look up whether their ballot has been mailed to them but may not be able to find out if it has been accepted. In contrast, Ballot Scout and BallotTrax's comprehensive services can text voters with updates on every step in their ballot's journey—when it's mailed, when it arrives at their residence, when it's in transit, and when it's been accepted. Tracking services give voters a much higher degree of confidence in the system. Such confidence could be especially important this year, when many voters will be voting absentee for the first time and questions are swirling about the security of mailed ballots.

By implementing a comprehensive ballot tracking system, Oregon can avoid problems such as those Wisconsin experienced in its April 2020 primary. If Wisconsin election officials had had comprehensive secure ballot tracking in place, they would have seen that thousands of mailed-out ballots had gotten stuck in mail processing centers. Getting this information would have given officials the opportunity to contact USPS and address the problem. Instead, thousands of voters were denied the ability to safely vote at home even though they had requested their ballot in time.

Ballot tracking is cost effective. For many states, depending on the number of voters and other implementation details, comprehensive ballot-tracking may cost around <u>\$50,000</u> per

<sup>&</sup>lt;sup>39</sup> https://www.democracy.works/ballot-scout

<sup>40</sup> https://ballottrax.com

<sup>&</sup>lt;sup>41</sup> California, Colorado, Delaware, Florida, Iowa, Maryland, New Hampshire, New Jersey, New Mexico, and Virginia require ballot tracking.

<sup>&</sup>lt;sup>42</sup> Alabama, Alaska, Arizona, Arkansas, Georgia, Idaho, Illinois, Iowa, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Utah, Vermont, Washington, West Virginia, and Wisconsin have some form of ballot tracking, though it is not required. https://tracker.votingrightslab.org/issues/AbsenteeVoting

year. It would be most effective for the secretary of state to enact statewide tracking, but if they do not, then local officials could step in. City or county administrators can sign up for local service, likely at a cost of a few thousand dollars per year.<sup>43</sup>

#### **Example Legislative Language**

**California Election Code** § 3017 (c). **Vote by Mail Application and Voting Procedures.**<sup>44</sup> The elections official shall establish procedures to track and confirm the receipt of voted Vote By Mail ballots and to make this information available by means of online access using the county's elections division website.

#### Florida Statutes § 101.62(1)(c). Request for vote-by-mail ballots.45

Upon receiving a request for a Vote By Mail ballot from an absent voter, the supervisor of elections shall notify the voter of the free access system designated by the department for determining the status of their Vote By Mail ballot.

#### New Hampshire Revised Statutes § 657:26. Absentee Voter Website.<sup>46</sup>

The secretary of state shall make available a public website by which an absentee voter, in every state election, may determine whether the voter's absentee ballot request has been received by the clerk, whether the absentee ballot has been sent pursuant to such request, whether the envelope purporting to contain the absentee ballot has been received by the clerk, and whether the absentee ballot was challenged and rejected by the moderator on Election Day, including the reason for the challenge.

# For Lawmakers

# 5. Allow counties to accept ballots postmarked on Election Day.

In 2018 approximately 176 mailed-out ballots in Oregon were rejected. Of those, 46 percent were rejected due to late receipt. It's likely that more Oregonians will want to use absentee ballots in 2020, and a similar rejection rate for ballots received after Election Day could disenfranchise even more voters.

Thirteen states<sup>52</sup> accept ballots postmarked by Election Day and received within a certain period afterwards (usually around 10 days). This gives absentee voters the same freedom as in-person voters to mark their ballot and submit it on Election Day. It also avoids confusion because voters don't have to guess how many days it could take USPS to deliver their ballot. Allowing clerks to count ballots postmarked on Election Day and received within 10 days increases voter engagement and makes elections more representative of the people.

Since Oregon does not accept ballots received after Election Day, make this very clear to voters. In the ballot materials, instruct voters not to put their ballot in the mail any later than the Wednesday before Election Day. Run PSAs a few days before that Wednesday to remind voters of the practical cutoff date and that they may take their ballot to a secure drop box or a vote center up until the polls close on Election Day.

## **Example Legislative Language**

# Alaska Statutes § <u>15.20.081(e)</u>. Absentee voting in general; applying for absentee ballot by mail or electronic transmission.<sup>53</sup>

Ballots must be postmarked by Election Day and received by the close of business on the 10th day after the election.

# Illinois Compiled Statutes $10 \S 5/19-8(c)$ . Time and place of counting ballots<sup>54</sup> and $10 \S 5/18A-15$ . Validating and counting provisional ballots.<sup>55</sup>

Ballots must be postmarked by Election Day. Ballots received after Election Day without the postmark shall be accepted if the certification date is on or before Election Day. Ballots must be received within 14 days after the election.

<sup>&</sup>lt;sup>52</sup> Alabama, Alaska, California, DC, Illinois, Kansas, Maryland, New Jersey, New York, North Carolina, Texas, Washington, and West Virginia accept ballots postmarked on Election Day.

https://www.ncsl.org/research/elections-and-campaigns/vopp-table-11-receipt-and-postmark-deadlinesfor-absentee-ballots.aspx

<sup>&</sup>lt;sup>53</sup> <u>http://www.akleg.gov/basis/statutes.asp#15.20.081</u>

<sup>&</sup>lt;sup>54</sup> http://ilga.gov/legislation/ilcs/documents/001000050K19-8.htm

<sup>&</sup>lt;sup>55</sup> http://ilga.gov/legislation/ilcs/documents/001000050K18A-15.htm

# Kansas Statute <u>25-1132</u>. Advance voting; delivery of ballots; where; deadline for receiving ballots.<sup>56</sup>

Absentee ballots can be received after polls close as long as they were postmarked before or on Election Day and are received within three days after the election. This second standard is not recommended, as USPS first-class standard has changed from one to three days but is now two to five days.

# Nevada Revised Statutes § 293.317(1)(b), (2). Procedure for timely returning absent ballot; treatment of absent ballot when postmark cannot be determined<sup>57</sup> and NRS 293.333(2) Procedure for depositing absent ballots in ballot box; period for counting of absent ballots.<sup>58</sup>

Ballots must be postmarked on or before the date of the election and received within seven days after the election. If a postmark is illegible but the ballot is received within three days of the election, it is considered valid.

# North Carolina General Statutes <u>163-231</u>. Voting absentee ballots and transmitting them to the county board of elections.<sup>59</sup>

Absentee ballots can be received after polls close as long as they were postmarked before or on Election Day and are received by three days after Election Day. This second standard is not recommended, as USPS first-class standard has changed from one to three days to two to five days.

## **Example Guidance Language**

Alaska Administrative Code 25.560. Timeliness of absentee by-mail ballot.<sup>60</sup>

## 6. Allow voters to request replacement ballots online.

Occasionally, voters might lose, destroy, spoil, or never receive their ballot in the mail. These voters need to be able to quickly, conveniently, and securely request a replacement. To best accommodate voters, especially during the pandemic, county clerks can give voters the option to request a replacement ballot not only in person but also in writing, over the phone, or online.

<sup>&</sup>lt;sup>56</sup> http://www.kslegislature.org/li/b2019 20/statute/025 000 0000 chapter/025 011 0000 article/025 011 0032 section/025 011 0032 k

<sup>&</sup>lt;sup>57</sup> https://www.leg.state.nv.us/nrs/nrs-293.html#NRS293Sec317

<sup>&</sup>lt;sup>58</sup> https://www.leg.state.nv.us/nrs/nrs-293.html#NRS293Sec333

<sup>&</sup>lt;sup>59</sup> <u>https://www.ncleg.net/EnactedLegislation/Statutes/HTML/ByChapter/Chapter\_163.html</u>

<sup>&</sup>lt;sup>60</sup> http://www.akleg.gov/basis/aac.asp#6.25.560

To ensure security, election officials should only send replacement ballots once they confirm that the voter has not already voted. Unique barcodes on each ballot will ensure that only one ballot per voter is counted (see Recommendation 5). Each voter will only be able to vote once; if an election official receives two ballots with the same unique barcode, only the first one received will be counted.

Printing and mailing ballots costs between \$1.26 and \$2.35. Oregon can reduce the need for replacement ballots by keeping voter records up to date and making it easy for voters to update their address online (see Recommendation 1).

## **Example Legislative Language**

# Oregon Revised Statutes § 254.470 (7). Procedures for conducting election by mail; rules.<sup>61</sup>

Voters may obtain replacement ballots if the ballot is destroyed, lost, spoiled, or not received. Replacement ballots need not be mailed if within five days of Election Day. Instead, they will be available at the office of the county clerk.

#### Revised Codes of Washington 29A.40.070. Date ballots mailed—Replacement ballots.<sup>62</sup>

Registered voters may obtain replacement ballots if the ballot is destroyed, lost, spoiled or not received. The voter may request a replacement by telephone, mail, or email, online, or in person.
